Heath-Henderson

## Introduction To Doors

Offering an extensive variety of high-quality uPVC, Timber, Aluminium and Composite doors, we're confident in helping you to find that front door to match your property's character.

With over 40 years of experience supplying and fitting doors across Surrey, you can trust us to successfully create and implement your dream door. Our range of doors are attractive, robust, low-maintenance, and will significantly improve the overall appearance of your home.

### Our range of doors

We utilise the highest grade of materials with any of our doors, along with the latest product technology. In partnership with some of the leading door manufacturers in the industry, we offer a wide range of doors.

# Discover your perfect door

# Heath-Henderson

## **An exquisite and high quality door.**

The first impression of your home is your front door. Choosing a type and style of entrance door is difficult enough, but if you're searching for a door which adds instant kerb appeal, then look no further!

**Heath-Henderson doors are stylish, high quality, low-maintenance, modern composite and upvc doors.**

The Heath-Henderson composite door is offered in an range of styles and is versatile enough to suit any home of any period.

Heath-Henderson doors are built to the latest industry security, safety, and environmental standards. They are constructed in the UK by a manufacturer with over 30 years of British heritage and expertise.

## Features & Benefits

Heath-Henderson doors are made from the UK's market leading **GRP composite door slab**. Our doors look great and can save you money on your heating bills compared to other doors in the market.

### Unparalleled Security

Due to its rigid polymer subframe, high density CFC-free polyurethane foam core, high impact resistant GRP skin and high quality multi-point locks.

### Exceptional Durability

High impact resistant glass reinforced polyester (GRP) skin. Selected Heath-Henderson products come with a 10 year peace of mind guarantee.

### Thermal Efficiency

The Heath-Henderson door is 19% more thermally efficient than a 48mm solid timber core composite door and 17% more thermally efficient than a 44mm traditional timber panelled door.

### Low Maintenance

Everything about a Heath-Henderson composite door is designed to be easy to maintain, including our insulated glass units. Simply clean with warm, soapy water.

### Excellent Weatherproofing

Water resistant polymer composite rails that protect its core. Your door will keep the weather at bay and stay looking good for longer.

### Superb Sound Insulation

Weighted noise reduction of 31 decibels. It means you can be sure your new door will keep outside noise to a minimum, helping to make your home the haven you want it to be.

## Quality Construction

Thanks to its rigid polymer subframe, high density CFC-free polyurethane foam core, high impact resistant GRP skin and high quality multi-point locks. The door leaf and glazing system are major components when part of a door set and have a proven ability to achieve PAS24:2016, industry's enhanced security standard, a prerequisite in attaining certification to Secured by Design a police initiative to protect against unlawful intrusion.

## Optimum Security

- WINKHAUS TRU-LOCK multi-point locking systems are fitted to all Elite Composite doors as standard. Superbly engineered, the Trulock mechanism is approved by the 'Secured by Design' Police initiative. Manufactured to meet the requirements of a modern door design, the Trulock delivers enhanced performance using low friction hook thrust plates for a smooth, precise operation.
- Sweet Dual Ring Pull available in chrome, black, gold and satin silver - dual sided as standard.
- The WINKHAUS HERITAGE multi-point locking system has a slam-shut operation whereby the lock hooks will automatically engage once the door is closed. A key is then required to gain entry from the outside.
- WINKHAUS AV2 - As soon as the door is closed, automatic locking takes place with 2 high tensile steel hooks engaging without the need to lift a handle.
- WINKHAUS AV3 - the autolock AV3 locking system from Winkhaus is an automatic multi-point locking system with independently acting hooks for claw action and sealing elements for a dynamic contact pressure. Triggered by means of a magnetic release on the frame and the door is secured against undesired entry. This ensures that the door always remains securely locked and remains firmly in its frame even without additional locking.

## Design options for your Heath-Henderson Door

Our Heath-Henderson doors are available for customisation to suit your home's style and character.

With 5 slab options, 175 door designs and 1000s of colour options to choose from.

All doors are available in 72mm or 56mm reinforced with steel as standard. You can colour match the composite door frames both internally & externally or choose from 1500+ RAL colours. Explore our extensive range of bespoke colour options and make your home stand out from the crowd.
