

SHEERWATERGLASS

Spectus colour chart

Every Spectus colour, woodgrain and substrate we can build your uPVC windows and doors in. Choose a finish, note the name, and our team will do the rest.

How to use this chart

Find your finish

The chart is in two parts. The colours and woodgrains are the foils applied to the outside of your frames, from smooth solid colours to realistic timber grains. The five colour substrates are the base profile colours those foils are laminated onto.

Tell us the name

Give us the finish name, for example Anthracite Grey or Irish Oak. Those two are our most requested, but every finish here is available to order, inside and out or on the outside only.

See it in person first

Bring the name to our Guildford showroom and we will show you a real foiled sample against your frame, glass and hardware choices before you commit.

Talk to us

Our friendly Sheerwater Glass team is always happy to offer honest advice on which finishes wear best on a Surrey home. If you would like to speak to a member of the team, please call 01932 344 415 or email info@sheerwaterglass.co.uk.

Please note

Printed colours are a guide only. Inks and papers cannot reproduce a foiled finish exactly, and screens vary more still. Grain depth, sheen level and the profile it is applied to all change how a finish reads in daylight. Always confirm your choice against a physical sample.

Find us

Unit B5, Moorfield Point
41 Slyfield Industrial Estate
Guildford GU1 1RU

Mon to Thu	9am to 5pm
Friday	9am to 4pm
Saturday	9am to 1pm
Sunday	Closed, and bank holidays

Glass & repairs surgery

Tuesday and Thursday 2pm to 5pm, Saturday 9am to 1pm. These are the only times a qualified member of the team is in the showroom. Email glazing@sheerwaterglass.co.uk.
