 01932 344415

### **Why Choose Sheerwater Glass?**

- Expert craftsmanship and precision installation
- Wide range of materials, finishes, and glazing options
- Energy-efficient, secure, and low-maintenance designs
- Tailored solutions for heritage, contemporary, and modern properties

## Front & Entrance Doors

### Style, Security, and Lasting Appeal

The entrance to your home sets the tone for the whole property. Front doors are more than a way in; they provide style, security, and practicality. We offer timber, aluminium, uPVC, and composite doors designed to suit your home and lifestyle.

#### uPVC Doors

uPVC doors combine low maintenance with weather resistance and energy efficiency. They come in a wide range of colours, finishes, and glazing options to complement any home.

#### Composite Doors

Composite doors bring together the look of timber with modern performance. With solid cores, reinforced frames, and durable skins, they provide strength, energy efficiency, and security. Popular ranges include Solidor and Hallmark.

#### Timber Doors

Timber doors offer natural warmth and character. Made from quality hardwood, they are built to last. Stains, finishes, and panel designs can be chosen to suit your home's style.

#### Aluminium Doors

Aluminium doors are strong and low maintenance. Their slim frames allow larger glazed areas, letting more light in while keeping the entrance secure.

## Bespoke and Commercial Front Doors

### Security Meets Style

We don't just supply residential doors. Our commercial front doors are engineered to withstand high traffic, meet stringent safety standards, and provide long-lasting performance.

#### Security and Durability

All our doors have multi-point locks, reinforced cores, and durable materials. Commercial doors are designed for high-traffic areas with security and energy efficiency in mind. PAS24 options are available, and aluminium, timber, or composite designs can be tailored to suit your building.

#### Bespoke Options

From intricate timber panel designs to modern aluminium glazing solutions, our team can craft doors to your exact specifications. Choose from custom colours, handles, letter plates, glazing patterns, and hardware to complement your building.

#### Residential Commercial Crossover

Many of our solutions are perfect for hybrid properties, such as home-offices, small businesses, or historic buildings requiring both traditional charm and modern performance. Solidor and Hallmark ranges provide a premium feel, ideal for high-end commercial or residential properties.

## Sliding Patio Doors

### Effortless Style, Seamless Access

Sliding patio doors are an elegant solution for modern homes. They open up living spaces, blur the boundary between indoors and outdoors, and create a bright, airy atmosphere.

#### Material Options

Choose from uPVC, aluminium, or timber sliding doors. Aluminium provides slim sightlines and a contemporary look, timber adds warmth and character, while uPVC delivers durability and low maintenance.

#### Energy Efficiency

Our sliding doors feature thermally insulated frames and double or triple glazing to prevent heat loss, reduce noise, and lower energy bills.

#### Security Features

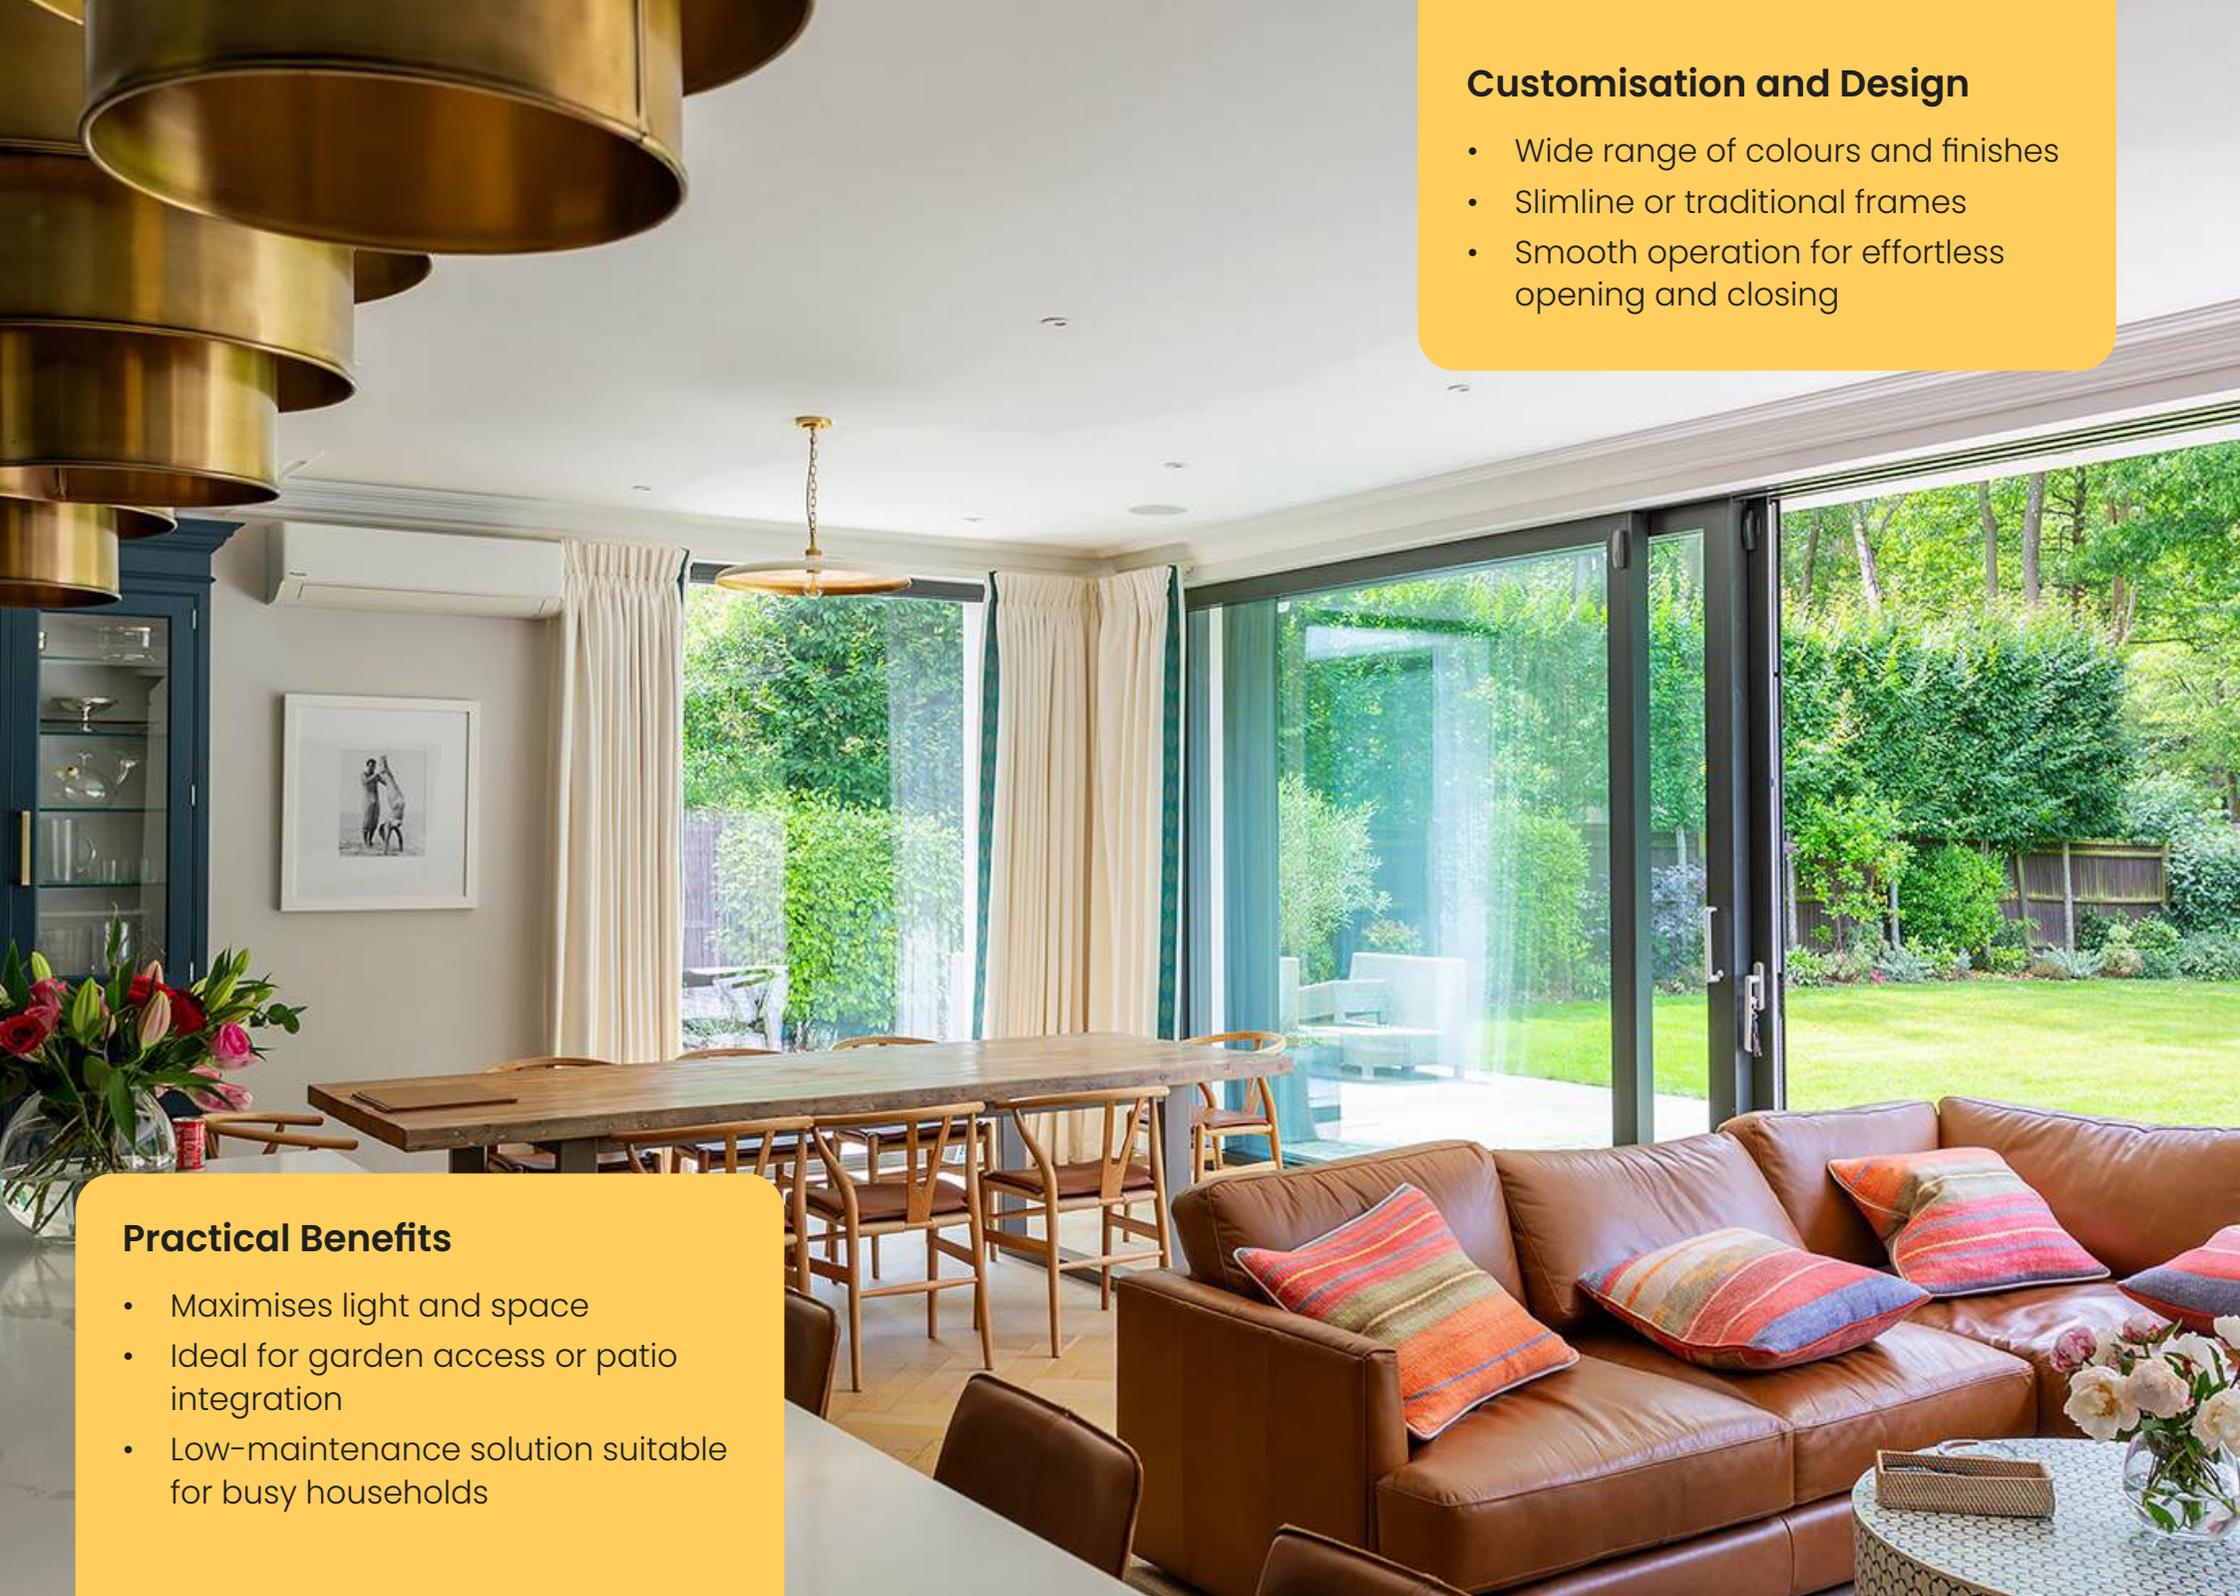

All sliding doors come with high-security multipoint locking, reinforced frames, and toughened safety glass, ensuring peace of mind without compromising on design.

## Customisation and Design

- Wide range of colours and finishes
- Slimline or traditional frames
- Smooth operation for effortless opening and closing

## Practical Benefits

- Maximises light and space
- Ideal for garden access or patio integration
- Low-maintenance solution suitable for busy households

## French Doors

### Timeless Elegance, Modern Function

French doors add light and style with large glass panels that frame outdoor views. Available in timber, aluminium, and uPVC, they suit both traditional and modern homes, combining warmth, sleek lines, or low-maintenance durability.

### Energy Efficiency & Security

All French doors meet modern insulation standards and feature multi-point locking systems, reinforced frames, and toughened glass, ensuring warmth and security.

### Customisation Options

- Wide range of colours and finishes
- Decorative glazing and hardware
- Single or double door configurations

### Practical Benefits

- Ideal for patio or balcony access
- Low-maintenance, long-lasting performance
- Enhances both indoor and outdoor living spaces

French doors are perfect for homeowners seeking elegance, functionality, and timeless style.

## Stable Doors

### Charm, Security, and Practicality

Stable doors offer versatility, security, and classic appeal. Ideal for homes with children, pets, or high ventilation needs, they allow the top half to open independently from the bottom.

#### uPVC Stable Doors

Perfect for traditional homes, uPVC Stable Doors combine period charm with modern durability. They feature reinforced frames, solid timber cores, toughened glass, and energy-efficient construction. PAS24 and SBD certification ensure high security.

#### Composite Stable Doors

Composite options, including premium GRP skins and steel-reinforced frames, offer a dual design that blends practicality with timeless style. Ideal for cottages or heritage homes, these doors are low-maintenance and highly secure.

#### Key Benefits

- Top-half opening for ventilation and security
- Energy-efficient and thermally insulated
- Highly durable and low-maintenance
- Available in various colours and finishes

Stable doors are a functional yet stylish solution, offering charm without compromising performance.

## Bi-Folding Doors

### Open Up Your Living Space

Our bi-folding doors are designed to bring the outdoors in, creating a seamless connection between your home and garden. Available in aluminium and timber, they offer both elegance and practicality.

### Aluminium Bi-Folds

Slim sightlines, polyamide thermal breaks, and multi-point locking systems make aluminium bi-folds a secure and energy-efficient choice.

### Timber Bi-Folds

Timber provides warmth and character while maintaining durability and smooth operation.

#### Practical Benefits

- Flexible opening configurations
- Maximises natural light
- Easy operation with stainless steel tracks
- Certified weather resistance and security

Bi-folding doors are perfect for creating bright, open living spaces with premium design and performance.

# Fire Doors & Bespoke Solutions

## Safety and Personalisation

### Fire Doors

Our FD30 and FD60 fire doors protect your property and occupants. Certified and installed by FireQual-approved professionals, they meet UK safety regulations, provide smoke protection, and integrate seamlessly with your home or business.

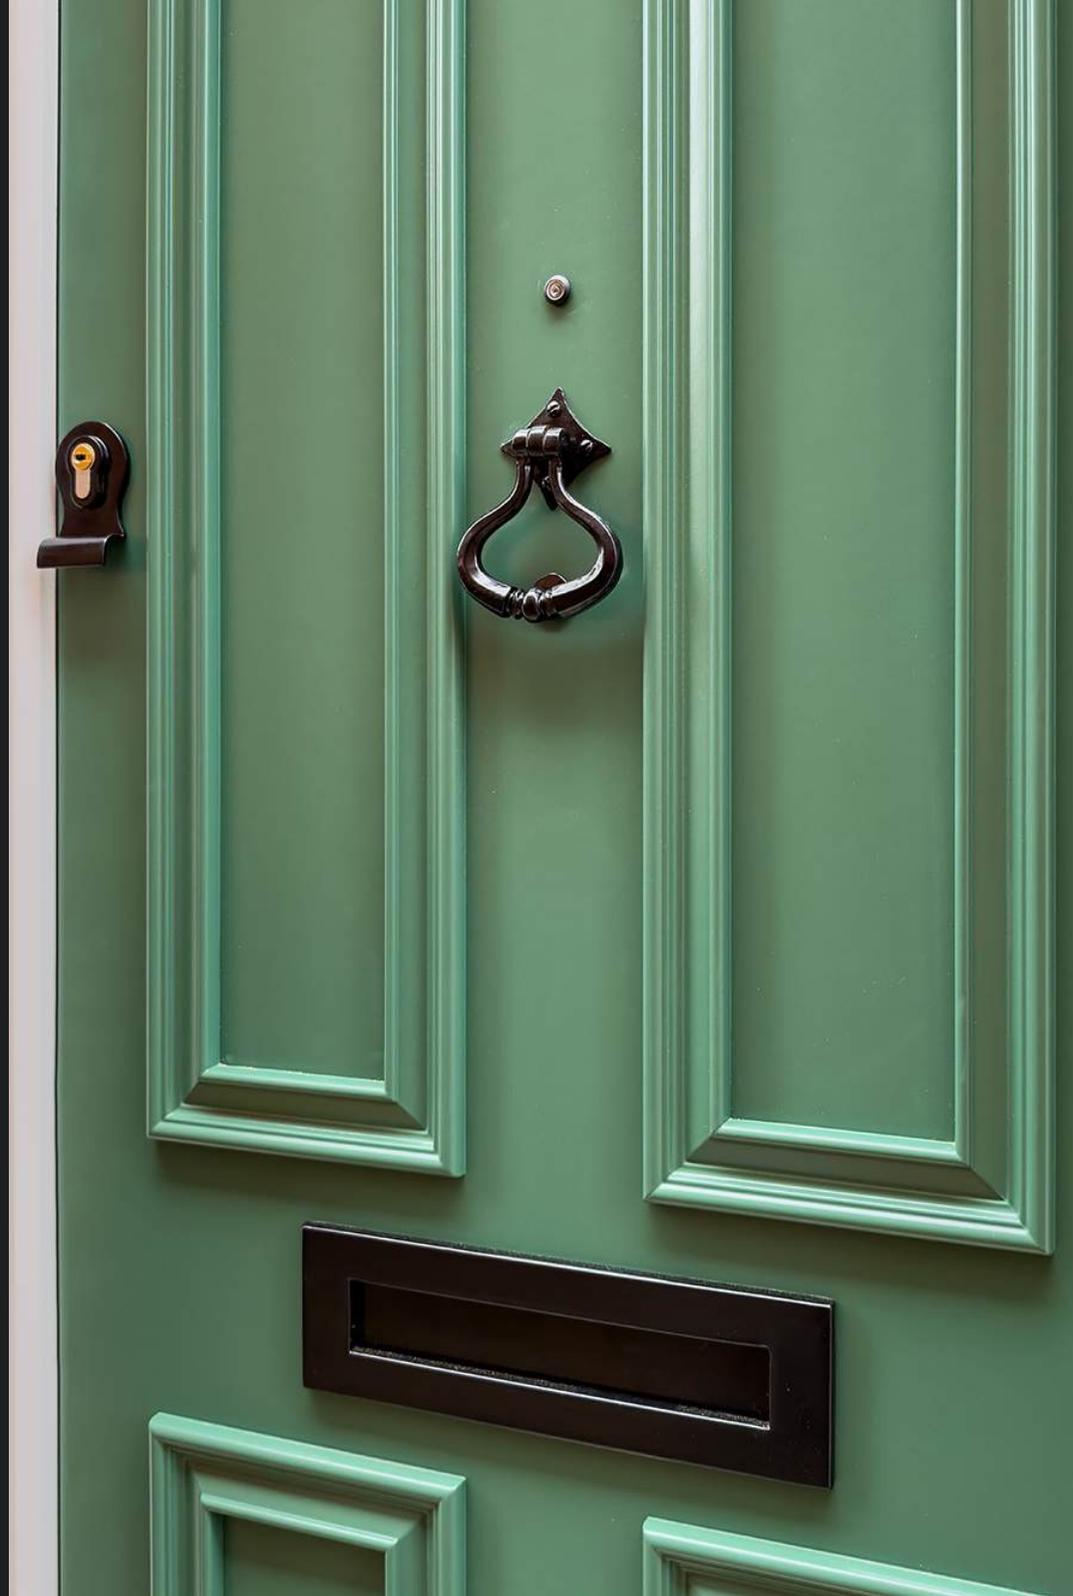

### Bespoke Doors

Tailored to your vision, our bespoke doors include unique shapes, finishes, glass, and hardware. Every detail is customisable, from arched French doors to intricate timber panels, ensuring a perfect fit for your home.

---

### Key Benefits

- Certified safety and fire protection
- Fully customisable aesthetics
- Expert guidance from design to installation
- Durable, low-maintenance, and secure

## Secure, Stylish, and Built to Last

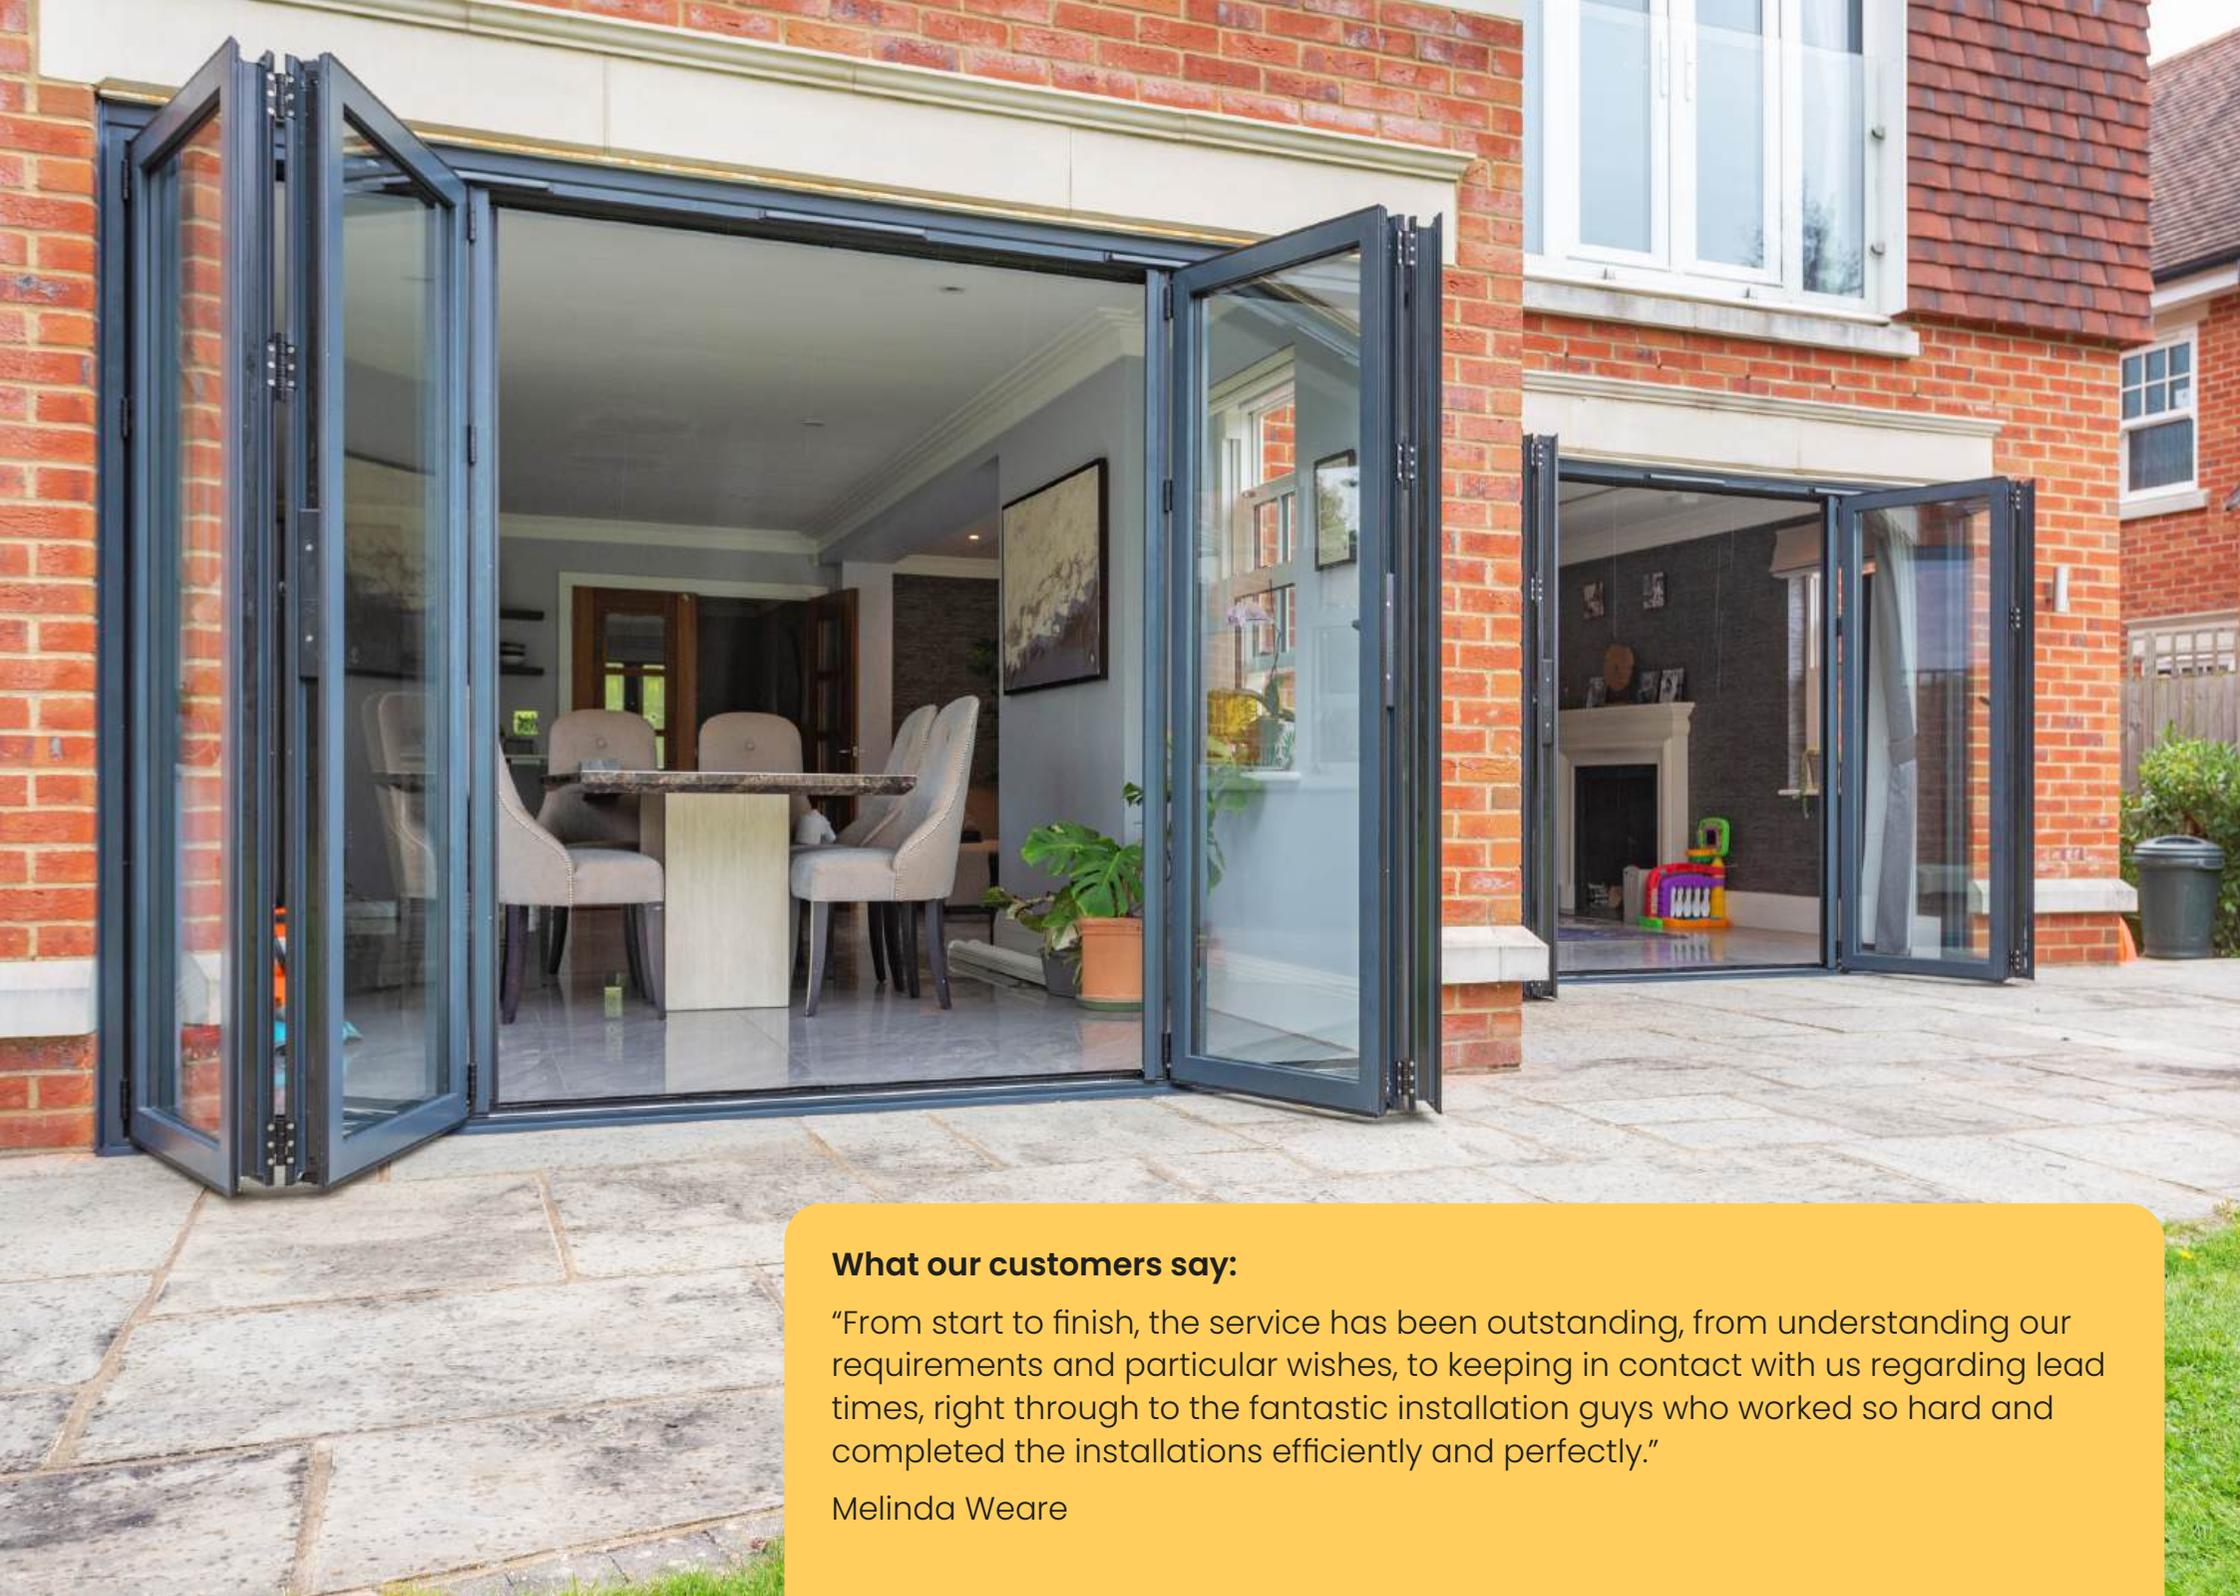

Quality is at the heart of every door. Built from premium materials and installed by skilled professionals, they fit perfectly and operate smoothly. Multi-point locks, reinforced frames, and certified glazing provide security and peace of mind.

Sheerwater Glass – beautifully engineered glazed spaces, designed to be lived in.

### Why Choose Us:

- Extensive range of doors to suit every style
