

SHEERWATERGLASS

Expert installers of double-glazed windows and doors.

 01932 344415

Introduction

We design, supply, and fit a full range of high-performance double-glazed windows

We transform homes across Surrey, Berkshire, and beyond with high-quality, bespoke windows. Every property is unique, and our windows are designed to complement the character of your home while providing the ultimate in comfort, security, and energy efficiency.

Our expert team will guide you through every step, from design and material selection to professional installation and ongoing care.

All our windows are built with premium materials, including timber, aluminium, and uPVC, each selected for durability, thermal efficiency, and weather resistance. Combined with high-performance double and triple glazing, they not only look exceptional but also help reduce heat loss, energy bills, and outside noise.

We believe in craftsmanship without compromise. Every window is made to measure, and our SafeContractor accreditation gives you peace of mind, ensuring we meet all standards and regulations. The result? Beautiful, secure, and highly efficient windows that enhance your home for years to come.

Discover the perfect window for your home with Sheerwater Glass where quality, style, and performance meet.

Casement Windows

Classic Style, Modern Performance

Casement windows remain one of the UK's most popular choices for good reason. At Sheerwater Glass, our casement windows combine timeless design with the latest technology in energy efficiency, security, and durability.

Available in; Timber, Aluminium, uPVC

Single and double casement designs can be tailored to your home's architecture, providing a perfect fit whether your property is contemporary or period.

Why choose our casement windows?

Energy Efficient, Enhanced Security, Durable

Timber options provide premium insulation and a traditional aesthetic, while aluminium delivers strength with minimal maintenance.

Installation is just as important as the window itself. Our professional team ensures each casement is fitted precisely to maximise thermal performance, noise reduction, and security. With our expertise, your windows will not only look perfect, they will perform perfectly.

From classic elegance to sleek modern lines, our casement windows are designed to complement your home while delivering long-term comfort and style.

"Our uPVC slimline casement windows offer up to 12% more glass for brighter, lighter rooms."

Mock Sash Windows

Traditional Charm with Modern Ease

If you love the elegance of our traditional vertical sliding sash windows but want modern functionality, our mock sash windows are the ideal solution. Combining classic aesthetics with the simplicity of casement mechanics, they are perfect for homes where traditional sash windows are not practical.

Our mock sash windows come in timber, timber alternative, and uPVC, each designed to suit your home. Timber alternatives offer the look and feel of wood without the upkeep, while uPVC gives lasting performance and easy maintenance. Expertly fitted, they combine style, efficiency, and reliability, perfect for renovations or full property makeovers.

Authentic Design

Replicates the look of traditional sashes for period properties.

Energy Efficient

Modern uPVC and timber options reduce heat loss and noise.

Low Maintenance

Unlike traditional sashes, no complex mechanisms to worry about.

Secure & Durable

Built with stormproof frames and multi-point locking for safety.

Enjoy the classic look of sash windows with all the benefits of modern design and materials.

Flush Casement Windows

Seamless Elegance for Every Home

Flush casement windows are designed to sit perfectly within the frame, providing a clean, contemporary aesthetic. At Sheerwater Glass, our flush casement windows are available in timber, uPVC, and aluminium, offering a solution for both modern builds and heritage properties.

Why choose flush casement windows?

- **Sleek Design:** The sash sits flush with the frame for a streamlined finish.
- **Customisable:** Wide range of colours, finishes, and hardware to suit your home.
- **Energy Efficient:** High-performance glazing and weatherproof seals keep homes warm.
- **Secure:** Multi-point locking systems and reinforced frames for peace of mind.

Our flush casements combine style and performance: timber blends traditional charm with modern efficiency, aluminium offers low maintenance and contemporary appeal, and uPVC provides a durable, budget-friendly option. Features like Georgian bars, weather bars, and decorative glass let you keep authentic character with 21st-century performance.

Flush casement windows are the perfect marriage of elegance, security, and energy efficiency, creating a bright, airy home with timeless appeal.

Tilt & Turn Windows

Flexibility, Security, and Light

Tilt & Turn windows offer ultimate versatility, allowing your windows to tilt for ventilation or fully swing open for maximum airflow and easy cleaning. Available in both uPVC and timber, these windows are practical, stylish, and secure.

Our tilt & turn windows combine contemporary design with robust engineering, delivering light, comfort, and peace of mind. Tailored to your home's aesthetic, they provide the perfect balance of practicality and style.

Dual-Purpose Function

Tilt from the top for gentle ventilation, swing from the side for full opening.

Energy Efficient

Double-glazed units with argon gas and low-E coating minimise heat loss.

Enhanced Security

Multi-point locking and PAS 24-compliant hardware.

Easy Maintenance

Designed for safety and functionality, ideal for high-rise or family homes.

Ideal for modern homes, apartments, or any property seeking flexibility without compromise.

Materials & Glass Options

Choose the Perfect Window

Selecting the right materials and glazing is key to your home's comfort, efficiency, and style.

Our carefully chosen range of window frames and specialist glass options suits every property and lifestyle.

Frame materials

Timber: excellent insulation and natural character, ideal for traditional homes

Timber alternatives: classic look with lower maintenance

uPVC: durable, cost-effective, energy-efficient, and secure

Aluminium: slim, modern profiles that maximise light and create a sleek finish

Glazing options

Double and triple glazing improve insulation, comfort, and security. Decorative and bevelled glass adds character, while secondary glazing preserves period properties without altering original windows.

Fully customisable in frame colour, finish, and glazing style, every window balances durability, performance, and design to suit your home perfectly.

Conservatory & Roof Glass Options

Choosing the right glazing is key for any conservatory, orangery, or roof lantern. Our high-performance solar control glass combines year-round comfort with low-maintenance self-cleaning technology.

Developed with leading manufacturers, it reduces glare and overheating, regulates temperature, protects interiors from UV damage, and lowers energy bills. Tint levels range from 10% to 90%, so there's a solution for every home.

Our conservatory glass range includes

Sunshade Self-Cleaning Glass: classic sky-blue tint, up to 82% solar heat reflection

Aqua Self-Cleaning Glass: ideal for south-facing spaces, reflects up to 82% heat

Blue Self-Cleaning Glass: soft blue tint, 53% glare reduction

Neutral Self-Cleaning Glass: natural look, 60% solar heat reflection

From period homes to contemporary extensions across Surrey, we deliver expertly specified glazing solutions designed around your space, your home, and the way you live.

Other Windows

Bespoke craftsmanship, thoughtfully designed for your home.

Every home is unique, and your windows should be too. Our bespoke windows are made-to-measure, allowing complete freedom of design. From arched, raked, gothic, and bullseye frames to carefully chosen hardware and traditional details, every element is tailored to your vision.

VELUX Windows

Natural light and fresh air transform a home. As certified VELUX installers, we supply, install, and maintain roof windows, from top-hung and centre-pivot to conservation styles, enhancing brightness, ventilation, and comfort. Repairs, replacements, and smart VELUX ACTIVE systems keep your windows performing effortlessly.

Choose from an extensive range of colours, including full RAL options, dual finishes, woodgrain textures, and genuine timber stains. With decorative, coloured, and textured glass available, your windows become striking architectural features that balance beauty, performance, and energy efficiency.

Window Designer

Design your perfect windows online with our intuitive window builder. Visualise styles, sizes, and finishes, upload an image of your property, and see your new windows brought to life before requesting a free, no-obligation quote.
