

SHEERWATERGLASS

Farrow & Ball colour chart

Every Farrow & Ball colour we can paint your windows, doors and roof lanterns in. Choose a shade, note the name and number, and our team will do the rest.

How to use this chart

SHEERWATERGLASS

Find your shade

The chart is grouped into colour families: whites and off-whites, neutrals and stones, yellows, reds and pinks, greens, blues, purples, browns, greys, then blacks. Each square carries its Farrow & Ball name and number.

Tell us the name

Give us the name and number together, for example Railings 31 or Off-Black 57. Those two are our most requested shades, but every colour here is available to order.

See it in person first

Bring the name to our Guildford showroom and we will show you a real painted sample against your frame, glass and hardware choices before you commit.

Talk to us

Our friendly Sheerwater Glass team is always happy to offer honest advice on which colours wear best on a Surrey home. If you would like to speak to a member of the team, please call 01932 344 415 or email info@sheerwaterglass.co.uk.

Please note

Printed colours are a guide only. Inks and papers cannot reproduce a painted finish exactly, and screens vary more still. Sheen level, texture and the surface it is applied to all change how a colour reads in daylight. Always confirm your choice against a physical sample.
